## PROFESSIONAL SUMMARY

Dynamic and collaborative individual with experience as an intern at Inspire Softech Solutions, where I applied problem-solving skills and programming expertise in Python. Known for fostering teamwork and maintaining a positive attitude, I thrive in environments that challenge my analytical abilities and technical knowledge.

## SKILLS

**PROGRAMMING SKILLS**

Python

C

Java(Intermediate)

MongoDB

MySQL

**TECHNOLOGIES**

Git

VS Code

Intellij

Docker

**CONCEPTS**

Data Structures

OOP

RESTAPIs

## EDUCATION

**Rajalakshmi Engineering College**
Chennai, India • Expected in 04/2028

***Bachelor of Technology*:**
Information Technology

- 9.04 GPA/CGPA
- Completed Coursework: IBM AI Developer, 2026
- Completed Coursework: UIPath Studio, 2026

## EXPERIENCE

**Inspire Softech Solutions** - **Intern**
*Remote • 12/2025 - 01/2026*

- Gained valuable experience working within a specific industry, applying learned concepts directly into relevant work situations.
- Analyzed problems and worked with teams to develop solutions.
- Contributed to a positive team environment by collaborating with fellow interns on group projects and presentations.

**Buddha Media Works** - **Volunteer**
*Chennai, India • 06/2024 - 08/2024*

- Assisted with special events and programs.
- Maintained clean, neat, and operational facilities to serve program needs.
- Supported engaging, fun, and smooth-running events by helping with organization and planning.
- Used strong interpersonal communication skills to convey information to others.

## ADDITIONAL INFORMATION

**PROJECTS**

**RailSync – Railway Coordination System(Ongoing)**
Developing a smart railway coordination platform designed to improve train scheduling and communication between stations.

- Built using modern web technologies and backend logic for efficient data flow.
- Focused on improving operational coordination and reducing scheduling conflicts and speed handling using AI suggestions analyzing the situation.
- Implemented structured data handling and user-friendly interface.
- **Technologies:** React, JavaScript, Node.js, REST APIs, Git

**BloodLink - Smart Blood Donor Matching System**

- Full Stack Intelligence: API, AI & Cloud in Action., Inspire Softtech Solutions, Completed 2026

## CERTIFICATIONS

IBM AI Developer

Designed a smart donor ranking system to connect blood donors with urgent requests.

- Implemented **donor ranking algorithm** based on location, availability, and compatibility.
- Integrated SMS and call features for emergency donor communication.
- Built using React and modern backend services to enable real-time request management.
- **Technologies:** React, TypeScript, Node.js, Express.js, Neon PostgreSQL, REST APIs, Git

**Sentiment Analyzer - AI Based Text Analysis**

Developed a sentiment analysis system to classify text as positive, negative, or neutral.

- Used machine learning concepts to analyze user feedback and social media text.
- Built preprocessing pipelines for text cleaning and feature extraction.
- Demonstrates understanding of NLP fundamentals and data analysis.
- **Technologies:** Python, NLP, Machine Learning, Scikit-learn, Pandas

**EXTRA CURRICULAR ACTIVITIES**

- 12 years of training and experience in singing
- Participated in multiple cultural events and performances
- 14 years of experience in drawing and painting
- Skilled in traditional and creative art styles
